

**For Businesses That Must Attract NEW CUSTOMERS:**

**“Here’s A Way To Never Miss  
Getting A Customer...  
And *Almost* Never Lose A  
Customer, Either.”**

**Over 65 million people are searching online every day using their mobile phones.**

**The mobile phone is becoming your customer’s computer. (true!)**

**”By 2013, more people will access the internet  
by mobile phones than desktop computers.”**

**The customers *you want* are becoming mobile users. They want access to your website using their mobile phone...**

**But is your website ‘Mobile-Ready’?**

If it's not 'Mobile-Ready' , then good, *cash-carrying, busy customers* are passing you by. ..and your competitors will gladly accept their business....

**Unless you do something about it!**

## Here's The Answers To Your Questions:

### **“How can my business be mobile-ready?”**

Easy! We'll build an image-enhancing easy-to-read mobile website...and your business will automatically be available to millions of mobile users anywhere, anytime!

### **“Why is mobile web so important?”**

**Mobile phones outnumber PCs by 4 to 1** and this number is rising daily. Your customers are already looking for you on their mobile phones.

### **“You'll be listed twice in the search engines!”**

Having a mobile site provides another way for visitors to find you. Your business will be listed on the on mobile-friendly search engines such as Google and Yahoo.

Your business will be placed in high traffic mobile and local directories, increasing your exposure...and more exposure equals more business!

### **“Why do mobile sites need to be different?”**

Websites built for viewing on computer screens don't present well on mobile phone screens, which are much smaller and slower to load. Mobile sites are specifically designed to be easy to read and navigate through on mobile phones.

### **“Will this replace my standard desktop website?”**

No, your desktop site remains unchanged. When a visitor arrives at your site while on their mobile device, it automatically and seamlessly delivers them to your mobile friendly version....and they still have the option to return to your full website with just one click!

### **“Is a mobile site expensive?”**

No, the volume of installations we do allows us to keep this service very affordable...for almost any size business. And the ROI is usually very high.

### **“why do I need a mobile website specialist?”**

Most webmasters don't know how to build effective mobile websites. Our proven expertise gives us an edge in creating a simple-to-use and sales-ready mobile site....and we do it quickly!

**Your mobile website will work on every mobile device- 100%GUARANTEED!**

## **Here's our PROMISE:**

### **100% Adaptability –**

Your mobile site will automatically adapt to any mobile phone.

### **100% Versatility -**

Your visitors will easily be able to switch between your mobile site and your full website.

### **100% Device Detection -**

Your visitors will be ensured the best user experience by automatically being routed to your mobile site if they are browsing on their mobile device

**100% Customer Visibility-** Visitors see your website the way it was meant to be seen. ...on all platforms, regardless of the brand.

**Get a FREE, no-obligation evaluation of how your site displays on your customer's mobile phones...**

**...And how we can create an attention-getting, customer-generating mobile website for your business!**

### **Why Take A Chance?**

There are very few experienced services that can build a mobile website for your business. We're one of the few that can custom design your mobile website quickly and affordably.
